Dr. Sidhartha Pani
Dr. Andrea Rizzo
Judy Larson, NP

Welcome to our practice!

We would like to take this opportunity to welcome you to our practice and to thank you for choosing our providers to participate in your healthcare. We look forward to delivering personalized, comprehensive health care focusing on wellness and prevention. As continuity and coordination of patient care is essential in meeting your healthcare needs, our physician, nurse practitioner, medical assistants, and office staff work closely in a “team approach” to support your patient care. Our team is trained in performing **behavioral health screenings** and will connect you with the appropriate providers. In an effort to help combat the opioid crisis please note that we are a **Non-Narcotic** office and we do not prescribe narcotics.

Our office is open **Monday through Friday from 8:00am-4:00pm**. Every effort is made to see our patients for medical problems during daytime hours and we will do our best to accommodate you. After hours care will be provided by the on-call physician, who can be reached by calling our office directly. If for any reason you are unable to keep your appointment our office requires a 24 hour notice otherwise a \$25 fee will incur.

As your primary care physician, we work collaboratively with Emerson Hospital and Partners Network who offers a wide range of physician specialists to coordinate all aspects of our patient care including inpatient hospitalization and specialty consultation care, as needed.

Before your visit, please notify your health insurance company of your new primary care provider. **Need health insurance?** Apply for health and dental insurance through the Massachusetts Health Connector at www.mahealthconnector.org. We also request that you contact your previous physician and specialists and request that a copy of your medical record be sent to us via fax or mail. If you require assistance in doing so please call our office. If your former providers are affiliated with the Emerson network this should not be necessary.

Please fill out the enclosed forms and bring them with you to your appointment.

During your initial visit, we will be reviewing your health status and these forms contain information necessary to complete this process.

Please bring your health insurance identification card as well as a photo I.D. Please bring a **complete list of all of your medications**, as well as the strength and dose of each one.

Once again, we would like to thank you for choosing us as your primary health care provider.

Sincerely,

The Providers and Staff of Emerson Primary Care Associates of Sudbury
